The list of regional coordinators would also be helpful!

Hi Betsy,

Thanks for the good info! Next Monday will be fine, as we have an ECOS Waste Committee call scheduled to discuss the matter on May 12.

Thanks so much!

Hi Lia

Sorry for not getting back to you yesterday. We are currently revising the Qs and As as a result of comments received. I think we are going to add some questions (based on input from ASTSMWO) and actually try to merge the two sets of qs and as into 1 to make it flow more logically. I think as a general matter the discussion at ASTSWMO was quite productive – getting into some of the “weeds” if you will but it was needed.

I want to be responsive to you all – do you want to see the Qs and As now or would you rather wait til next Monday when I have another draft? (Personnally I think next Monday would be better for you all—but I can do either...

Just let me know.

Good morning Betsy,

Do you anticipate that you will have the revised Q&A and regional contacts list in the next couple of days?

Many thanks,

Lia

Hi Betsy,

Yes, that will be great. We're also in the process of scheduling an ASTSWMO report-out call for ECOS Waste Committee in the next few weeks.

Good luck at your meetings!

Best,

Lia

Hi Lia

Thanks so much for the email. I think if it is ok, I'd like to get the ASTSWMO general feedback before distributing to ECOS. The session with the ASTSWMO group is tomorrow so I should have a sense of their input relatively quickly.

Will this work for you? I'm currently at the RCRA Div Dirs Mtg & then go to ASTSWMO tomorrow so I am periodically checking e mails.

Again thanks and let us know if there is anything else we can do on this issue.

Subject: Coal Ash Information for ECOS

Good morning Betsy,

Many thanks to you, Barry, Kathleen, Byron, and Kent for meeting with ECOS members at our recent Spring Meeting in DC to discuss next steps on CCR.

Do you now have the draft Q&A and list of regional contacts that I might distribute to members of our Waste Committee in advance of our report-out from ASTSWMO? Or if the Q&A is like to change at the ASTSWMO meeting, perhaps we should wait to distribute it after the meeting.

Best regards,
